Amsterdam Schiphol Airport

Amsterdam Schiphol Airport is where it started for us at JetSupport. From 2001 we have been able to gradually expand our facilities and services, with a simple thing in mind: offering complete service packages to facilitate all the wishes of our customers. From "simple" overnight parking to base maintenance and from FBO services to regular line maintenance. At our facilities in Amsterdam we can provide you a proposal according to your wishes.

Available services:

- Long-term/storage parking
- Fully climatized and heated facilities
- Overnight parking
- Full concierge services to base your aircraft at Amsterdam
- Maintenance support services
- Aircraft cleaning
- Customer and crew lounges

Facility dimensions:

- Total capacity: 12.500 m2
- Maximum wingspan: 86 meter
- Maximum tail height: 23 meter

Designed to fit the following aircraft categories:

Oberpfaffenhofen Airport

In 2020, we extended our services with a brand-new hangar with Part-145 line station approval at the Sonderflughafen Oberpfaffenhofen / Germany. This geographic expansion further strengthens our daily mission: aircraft availability. With the increasing importance of business aviation in Europe, we want to ensure the right support for you. This new JetSupport facility, with a dedicated team close to Munich, is looking forward to welcome you.
